Main competences

SAP IBP /APO (GATP, PPDS SNP, DP)
SAP Logistics (PS/PP/SD/MM)
Project Manager / Team lead
Multi-national/International
Technical skilled (except being a programmer)

PROFILE

Personal qualities

After completion my academic study (with part time business administration) I started working as a business analyst for 2 years. However I really wanted to focus more on the primary processes in companies and therefore I started working in the ERP world. First as a Baan consultant, and then as a SAP consultant. I have developed my self as an all-round logistics consultant who takes business processes as the starting point during an implementation. Besides that I really can go into detail if necessary.

Key skills:

- Analytical, conceptual, dynamic, entrepreneurial, to-the-point, purposeful, team player
- Excellent communication, presentation, coordination and leadership skills
- Strong solid logistical background including integration aspects to financial accounting.

KNOWLEDGE

Education	: Agricultural University, 1994
ERP experience	: since 1998, Release from 3.1h to 6.0
